

## **JORDAN**

### **Project No: 2017-JORTRANS-374**

**Project Title:** Feasibility Study for Reconstructing the Old Ottoman Hejaz Railway Line

**Project Owner:** Ministry of Transport of Jordan

**Project Partners:** Iraq, Turkey

**Cooperation Area:** Transport and Communications

**Implementation Year:** 2018

**Project Purpose:** One of the expected outcomes of the COMCEC Strategy in transport and communications cooperation area is “identified bottlenecks and assessed funding requirements particularly with respect to inter-regional connectivity”. This project was designed to serve for this outcome and aimed at determining the potential development points in the Old Ottoman Hejaz Railway Line to further enhance the socio-economic cooperation and inter-regional connectivity among the partner countries.

**Project Activities:**

- Research Report on feasibility of reconstruction alternatives for reviving the respective railway line
