

## **JORDAN**

### **Project No: 2018-JORTRANS-584**

**Project Title:** Reconstructing the Old Ottoman Hejaz Railway Line - Phase 2

**Project Owner:** Ministry of Transport

**Project Partners:** Egypt, Iraq, Saudi Arabia and Turkey

**Cooperation Area:** Transport and Communications

**Implementation Year:** 2019

**Project Purpose:** Inadequate transport infrastructure, poor maintenance services, limited financial resources and funding opportunities are the major problems of the OIC countries and one of the Working Group meetings of the COMCEC was dedicated to these topics to raise awareness. Within the same scope, Ministry of Transport of Jordan will discuss the funding opportunities for reconstructing the Hejaz Railway Line and share experiences on railway engineering and planning with the project partner countries.

**Project Activities:**

- Training on feasibility studies, railway engineering and planning
- Workshop for raising opportunities and challenges on funding requirements of the Hejaz Railway Line
